INTRODUCTORY NOTES

1. In 1947, in order to strengthen forestry management, the Taiwan Provincial Government established the Forestry Administration Division. In 1960, the organization was restructured by order of the Taiwan Provincial Government and renamed the Forestry Bureau. It established six divisions and 13 forest district offices. With the expansion of its duties, additional facilities such as engineering offices, firefighting units, and forest recreation areas were gradually established. Since July 1, 1989, the Forestry Bureau has become a government budgeted administrative agency. The original 13 forest districts were reorganized into 8 forest district offices. For forest resources survey and aerial photogrammetry, this bureau has set up the Aerial Survey Office. In 1999, Following the promulgation of the Provisional Statute for the Reorganization of Taiwan Provincial Government, the Bureau was placed under the central government as the Forestry Bureau of the Council of Agriculture, Executive Yuan., and the bureau took over responsibilities from the Forestry Department's Forestry and Conservation Divisions since January 30, 2004. To promote sustainable development of the Alishan Forest Railway and surrounding cultural assets, the Alishan Forest Railway and Cultural Heritage Office was established on July 1, 2018. On August 1, 2023, to streamline forest governance, the Forestry Bureau merged with the Forest Conservation and Management Administration of Veterans Affairs Council and was restructured into the Forestry and Nature Conservation Agency (FANCA), with subordinate branches, including Hsinchu, Taichung, Nantou, Chiayi, Pingtung, Taitung, Hualien, and Yilan regional branches, Aerial Survey and Remote Sensing Branch, and Alishan Forest Railway and Cultural Heritage Office. The Organic Act of the Forestry and Nature Conservation Agency was passed by the Legislative Yuan on May 16, 2023, promulgated by the President on May 31, and came into effect on July 13. This restructuring formally established the agency as the central authority for forestry and natural resources management in Taiwan.
